

# MH-FJ-3A

Carton Sealer with  
flap-folder

## properties

The MH-FJ-3A is a Carton Sealer with manual adjustment and pneumatic flap-closing design. The machine automatically folds the four flaps on the top. The machine is suitable for being placed "in line". The machine is suitable for serial closing of American folding boxes with tape on the top and/or underside. Professional finish guaranteed by pressure rollers for pushing flap openings together. The box is moved to the machine along side conveyor belts. Adjustment is easy and fast using the handles.

## technical specifications
